### **Regular Board of Commissioners Meetings Are Now Streaming Live**

Jonesboro, Georgia--- The Clayton County Board of Commissioners is pleased to announce a new service that offers residents increased access to public meeting information along with Live and On-Demand Video of government meetings. This new platform, powered by Accela Legislative Management, will help to streamline and manage public meetings and legislative management processes.

Clayton County will leverage Accela Legislative Management's 'MinuteTraq' software to automate the preparation of meeting agendas and instantly publish meeting materials and information online. The public can access this information quickly and from anywhere, including full-text search capability. This new service provides the live video streaming of Board of Commissioners meetings over the Internet, whether on the County's website or a new mobile app for iPad. Citizens can watch Board of Commissioners meetings live or on-demand by visiting our website or by using the "WeGovern" app for iPad.

***Citizen Web Portal:*** Citizens can access 'Agendas & Minutes' documents and watch LIVE meetings or historical meetings. This is currently available on the Board of Commissioners web page located on Clayton County's website. [www.ClaytonCountyGa.gov](http://www.ClaytonCountyGa.gov)

***WeGovern App for iPad:*** Available at no cost in the iTunes App Store. This mobile app provides the same functionality as the Citizen Web Portal, and is available directly on your iPad. At this time, this feature is only offered in the app on iPad; however, mobile phones and other tablets can utilize the same information and video streaming using the ***Citizen Web Portal*** on their web browser.
