CLAYTON COUNTY STATE COURT LAUNCHES E-FILING SYSTEM FOR CIVIL FILINGS

The Clayton County State Court is pleased to announce the launching of the first E-Filing system for all civil case filings.

After diligently working with Clayton County's IT Department lead by Brett Lavender, Director and his highly qualified project management and programming team, Tyler Technologies Odyssey eFileGA and the State Court of Clayton County will be offering E-Filing to all filers starting May 27, 2015.

The Clayton County State Court has never had an E-Filing system, other than a handful of civil suits filed more than a decade ago as part of a long-dormant in-house pilot program.

Odyssey eFileGA allows users to easily open court cases and e-file documents from a single website anytime and from anywhere — **24 hours a day, seven days a week, 365 days a year** at <http://www.odysseyefilega.com/index.htm>. Similar to the federal document filing system for Georgia — Case Management Electronic Case Filing System (CM/ECF), Odyssey eFileGA significantly streamlines the case filing process and provides benefits to both the filer and the court. The website will also offer filer training along with all the information needed to subscribe and use the service.

E-Filing will be a voluntary service provided by the Clayton County State Court in the beginning, but will be working towards mandatory E-Filing in the future.

Filers will be able to access the portal to eFileGA via the link above or from the Clayton County website at www.claytoncountyga.gov.
